

Invitation to our international press conference with Robert F. Kennedy Jr. on March 21, 2020

On Saturday, March 21, 2020, from 5 to 6.30 p.m., an international press conference with Robert F. Kennedy Jr. and Vera Sharav will be held

Robert F. Kennedy Jr. and Vera Sharav will be coming to Germany for the first time to talk about their organizations, the „[Children’s Health Defense](#)“ and the „[Alliance for Human Research Protection](#)“, and to stand up for medical freedom and free vaccine choice, together with Netzwerk Impfentscheid Deutschland (Network for Vaccine Choice Germany) and the European Forum for Vaccine Vigilance (EFVV).

Robert F. Kennedy Jr. is an attorney, environmental activist and author. He is the nephew of the 35th President of the United States of America, John F. Kennedy, and founder of the „[Children’s Health Defense](#)“. One of his latest judicial achievements is winning the court case against the US health department DHHS, which had been mandated to examine vaccine safety on a regular basis. **He was able to prove that no such examination has taken place for the last decades.**

Vera Sharav is a Holocaust survivor and pharma critic living in the USA. With her organisation, the „[Alliance for Human Research Protection](#)“, she stands up against medical experimentation on human beings. The mandatory vaccination laws in many countries infringe upon the Nuremberg Code of 1947.

If you want to attend the press conference, please send an e-mail to presse@impfentscheid-muenchen.de. A part of the seats is already reserved for international press representatives. We kindly ask you for patience, as processing of your enquiry may take a few days due to the number of incoming requests. You will be given the address where the press conference will take place as soon as your registration is confirmed.

Press Website: You will find further information as well as photos on impfentscheid-muenchen.de/presse, which can be used for online reporting and social media free of charge. If you need high-resolution photographs for print media, please request the desired pictures via presse@impfentscheid-muenchen.de.

Let’s stand up together for **medical freedom** and **safe vaccines**.

Where there is risk, there must be choice: The German mandatory measles vaccination law, which will put millions of people in Germany under **duress to vaccinate** and impose **penalties and fines** in case of refusal, contradicts the fundamental consensus of our democracy and our fundamental right to physical integrity (Art. 2, German Basic Constitutional Law).

Best regards

Netzwerk Impfentscheid and European Forum for Vaccine Vigilance
